Don't Lend Your DIRECTORY!

The patrons of our Directory are frequently inconvenienced by

BORROWERS;

not the stranger or private citizen, who steps in, looks at the Directory, gets his information, and goes out; but by business men, who continually need it for reference, yet are TOO MEAN to buy one. These are the men who carry off your Directory "just for a few minutes," which generally means a few days or weeks unless you send for it before.

These same borrowers tell our Canvassers that they have no use for a Directory.

THE ability to buy cheaply is one of the most important attributes of commercial success.

THERE is one exception, however.

A MAN cannot buy printed matter as he would iron, or paper, or machinery.

FOR good printed things are made up just as much of brains as they are of presswork and technical skill.

Henderson Brothers of Winnipeg

can put personality into your printing, because of their experience in turning out the most splendid examples of commercial literature in the west.

IT would not be amiss to let them explain their unusual facilities at 279 Garry Street, Phones 7224 and 7225, P.O. Box 39, Winnipeg, Man.

There is every opportunity for the agent to strengthen his service department by improving upon his client's literature.

No matter how high-class and capable an agent is, assistance from an experienced printer will not come amiss.

Henderson Brothers

of Winnipeg

have turned out probably more exceptionally good literature than any other printer in the west

There service is made up half of excellent technical workmanship and half of personality.

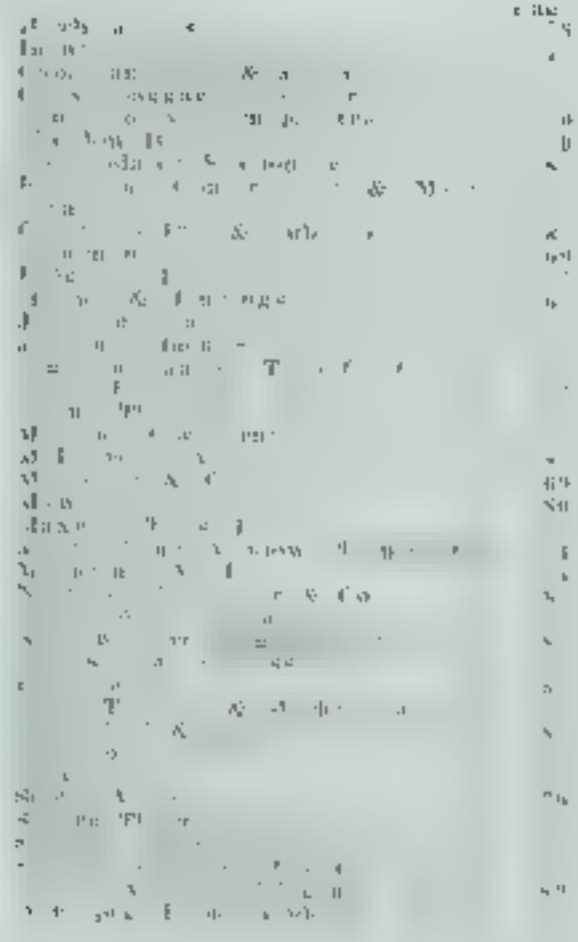

Let them strengthen your campaign with high-grade booklets or catalogs.

Why We Can Do High-Class Printing

Because

¶ The very latest improvements are embodied in our presses and type-setting machines.

¶ The type faces, rules, borders and ornaments are the newest creations of the letter founder's art.

¶ The inks and stocks used are of the very best manufacture.

¶ Our workers have been chosen for their skill and intelligence in accomplishing effective printing results.

Will you not become a Patron of the highest art in the printer's craft?

Head Office Cor. McDERMOT AVE. and ALBERT ST., WINNIPEG, Man.
Branch Offices BRANDON, REGINA, PRINCE ALBERT

Germania is the best medium in the west through which to reach the German speaking people of the Dominion, as it circulates among the most prosperous class of Western Canada.

Germania carries more advertisements of reputable business houses of Winnipeg than any other German paper in the west, which proves that it brings results to advertisers.

. . PREFACE . . .

In presenting to the public this thirty-first volume of Henderson's Winnipeg City Directory for 1910, we take the opportunity to thank our numerous patrons for their support in our effort to produce a guide commensurate with the requirements of such a flourishing city.

Similar difficulties to those encountered in previous years have been met with in the compilation of the present issue, but extensive removals and transfers of business premises from one point to another, but great care and attention have been bestowed by us in endeavouring to make this edition as near perfect as possible and to warrant the continued favour of the general public.

The extreme cosmopolitan character of the population of Winnipeg wherein some 50 different nationalities are spoken indicates the vast attraction which the Canadian West bears to the outside world.

As will be noticed the business community has not failed to recognize the merits of this publication for advertising purposes while the other elements themselves fully show to what a prominence that medium has reached in this commercial world. Great emphasis upon this point could be made after a careful perusal of that section of the Directory to which special attention has been paid.

It is gratifying to be able to record a further increase in the population of Winnipeg a proof that the city of the Golden West is becoming solidified. No better proof than this is afforded by a glance at the rateable value of property as therein which has risen to the large sum of $110,101,390 as compared with last year's returns of $93,826,860.

Building permits to the number of 1,646 have been granted during the past year representing an amount of $5,447,200 expended or to be incurred. In the ensuing year that amount is to be largely augmented by new buildings of the G. T. Pacific and C. N. Railways jointly and in addition, the approach to the city from St. Boniface will be materially enhanced by the erection of a splendid iron bridge.

Consequent upon the increase of the population of Winnipeg, and the extra demand upon space through the remodelling of the General Information section, this year's Directory has been enlarged by the addition of some 250 pages. The Directory for 1909 contained 48,950 names— in the present issue there are 54,753. Using the low multiple (as in previous years) of 3.5 an estimate of the entire population of Winnipeg including the suburbs of Norwood, Elmwood, St. Boniface, St. James and St. Charles is 191,593 which shows an increase of 27,514 over 1909. The general signs of hopefulness and prosperity following a record harvest are stronger than heretofore and we are grateful to assist in recording another year's progress.

Attractive Engravings

WHEN New York had but one Skyscraper it stood alone it was unique. But Skyscrapers are so common in that city to-day that they need to be brightly illuminated or topped with dome or spire to order to specialize them.

So it is that your Advertisements and Business Literature need the help of the Artist-Engraver to add an attractive picture that will be a "hand wave to the public" and so draw the desired attention. Fine engravings prove themselves to be Business Creators. We make a specialty of Designing and Photo-Engraving and wish to serve you with some of our highest quality productions.

MAPS

Are silent monitors of the progress, power and influence of Empire, State and Municipality

The Stovel Series

OF MODERN VEST POCKET MAPS OF THE CANADIAN PROVINCES

are designed and compiled from the newest government surveys and statistics and other official sources.

They are clear, legible and comprehensive in every detail, being engraved by the new process of cerotype engraving. We are the only engravers in Canada operating this modern process, and it represents a new departure in the industrial advancement of Canada.

All newsdealers and stationers sell them.
